

Shanaaz Ahamed

Software Engineer

✉ shanaazahamed21@gmail.com ☎ +94 70 2125 725 📍 Matara, Sri Lanka

🐙 GitHub/imshaaz21 🔗 LinkedIn/imshaaz 📁 Portfolio

Profile

Dedicated Software Engineer with a passion for solving complex technical challenges. Proficient in **Java, Python, and JavaScript**, with expertise in modern frameworks like **SpringBoot** and DevOps tools including **Docker, Kubernetes, and ArgoCD**. A creative problem solver who excels in dynamic environments and is eager to drive system optimization through continuous learning and innovation.

Professional Experience

Software Engineer

Cloud Solutions International 🌐

06/2024 – present

Colombo, Sri Lanka

- **Automated the release process** for VIDA4, a widely used Health Information System (HIS) used across the Middle East. Utilized **Kubernetes, Python, and Liquibase** to eliminate manual deployment efforts, significantly accelerating environment setups and release rollouts.
- **Revamped the IAM solution** by customizing **Keycloak**. Developed custom UI and APIs to decouple modifications from the core codebase, ensuring seamless future upgrades and maintainability (**Java, React**).
- **Developed full-stack features** for the Finance and Administration modules of the VIDA4 platform, ensuring robust performance using **Spring Boot** and **Angular**.

Data Science Intern

Dialog Axiata PLC 🌐

01/2023 – 07/2023

Sri Lanka

- Skills : Machine Learning, ReactJS, Python, JavaScript
- Developed a MDT Data Processing & Visualization web based application.

Projects

Enhancing Outdoor Computer Vision in Resource-Constrained Environments

Final year project

08/2023 – 06/2024

- **Engineered a dynamic model-switching mechanism** that automatically adapts to changing environmental domains (e.g., lighting or weather conditions), ensuring consistent accuracy in outdoor settings.

Education

MSc in Computer Science

University of Moratuwa

01/2025 – Present | Sri Lanka

Specialisation in Cloud Computing

BSc (Hons) in Engineering Specialised in Computer Science and Engineering

University of Moratuwa

2020 – 2024 | Sri Lanka

- Graduated with a CGPA of 3.63/4.2

- **Optimized deep learning models** for deployment on edge devices by applying **pruning and quantization** techniques, significantly reducing memory footprint and inference latency without sacrificing performance.

Skills

Programming Languages

Java, Python, TypeScript, Dart, C

Frameworks & Libraries

Spring Boot, React, Angular, Django, Flutter

Database Management Systems

PostgreSQL, Oracle, MongoDB

Tools & DevOps:

Kafka, Docker, Kubernetes, Liquibase
